SUBJECT INDEX

acetate
    in formation water 375
    in sediments 71
acid
    amino 1
    hydroxybenzoic 687
    volatile 1
acid-base equilibria 327
Acquarossa, Switzerland 563
Ag, in organic matter 491
Akita-Niigata, Japan 263
Al
    complexation by CAA's 687
    in laterite 303
Alaska, North Slope 279
Alberta Basin
    Alberta, Canada 375, 397
Alberta, Canada 657
algal mats
    trace elements 491
    trace metals 507
alkaline earth elements
    in travertine 631
alkanes 115
alkylation, degree of 17
alteration
    alkali 289
    bitumen 227
    hydrothermal 193
    petroleum 17
American Cordilleras 475
amino acids 1
    bulk composition 159
    diagenesis 159
    enantiomers 159
    in marine sediments 159
    stereochemistry 159
ammonia
    in Au deposits 289
ammonium
    in geochemical exploration 475
    feldspar 471
    lithogeochemistry 471
    minerals 471
    muscovite 471
Anadarko Basin, Oklahoma 429
analogs, radionuclide 555

ANALYTICAL METHODS
    Kjeldahl 471
    Nessler 471
    nuclear magnetic
        resonance spectroscopy 125
    X-ray absorption near edge
        structure (XANES) 237
anhydrite 449
    in hydrothermal vents 115
Antarctica
    Bransfield Strait 3, 135, 149, 159
aphiolite, $CH_2$-$H_2$ gas seeps 625
Ar 211
    in geothermal gases 605
    in hot springs 605
aragonite
    in Guaymas Basin 41
    in travertine 631
archaebacteria 103
argillite, O isotopes 641
Arkansas, Gulf Coast 449
aromatic hydrocarbons 41, 169
aromatic steroids
    in Newark Basin rocks 211
As
    in laterite 303
    in organic matter 491, 507
asphalt, hydrothermal impregnation 103
asphaltenes 29
    in hydrothermal petroleum 65
Atacama Desert, Chile 719
Atlantic Ocean, Mid Atlantic Ridge 115
Atlantis II Deep, East Pacific Rise 3
Au 237, 289
    haloes 297
    placer deposits 297
Au-quartz veins 297
Australia, South Australia
    Port Pirie 491
Aycross Formation, as source rock 169

B
    isotopes, review of 541
    in organic matter 491
Ba
    in groundwater 555
    in laterite 303
    in travertine 631
Baikal rift zone, USSR 297
barite 555
    in hydrothermal chimney 29
    in marine sediments 77
base metal deposits, exhalative 475
benzopyrenes
    in hydrothermal petroleum 115
bioavailability 17
biodegradation 3
    of hydrothermal petroleum 65
    of petroleum 93
biogeochemistry 1
    hydrothermal vents 125
biogeological Sr 361
biological activity, termites 303
biological markers 211
biomarkers 1, 3, 29, 41, 149, 169, 429
    in hydrothermal petroleum 115
bitumen, alteration 227
black shale 471
    Au deposits 289
bloedite 703
bornite, in till 347
Br
    in brines 375
    in closed basin waters 719
Bransfield Strait
    Antarctica 3, 135, 149, 159
brine
    Alberta Basin 375, 397
    corrosion inhibitors 527
    scale inhibitors 527
brucite 625
butyrate, in formation water 375

C 115, 125, 135, 211, 227, 237, 263
    in marine sediments 159
C isotopes, in Guaymas Basin petroleum 65

Ca 527
    in closed basin waters 719
    in Cu mine water 719
calcite 555
    cements 449
    in hydrothermal vent 93
    in marine sediments 77
    in travertine 631
Calcite Springs, Wyoming, USA 169
calcium phosphonate 527
calcium-diethylenetriaminepenta
    (methylene phosphonic) acid 527
California
    Escanaba Trough 83
    Long Valley 571
    San Joaquin Basin 687, 703
Canada
    Alberta 657
    Alberta Basin 375, 397
    Lac du Bonnet, Manitoba 533
    Quebec, Waite Amulet 327
carbonate solubility
    by carboxylic acid anions 687
carbonates
    C isotopes 449
    diagenesis 449
    inclusions in 51
    O isotopes 449
    Sr isotopes 449
carboxylic acid
    anions, in formation water 687
    in sediment alteration 193
Cd, in organic matter 491
Ce, in laterite 303
celestite 449
chalcopyrite
    in hydrothermal vents 115
    in marine sediments 77
    in sulfide tailings 327
    in till 347
chemical degradation 103
chemical geothermometry 169
chemosynthesis 3
    Guaymas Basin 41
Chile, Atacama Desert 719
chrysotile 625
Cl
    in brines 375
    in closed basin waters 719
    in Cu mine water 719
    in groundwater 555
clay minerals
    H and O isotopes 657
$CO_2$
    generation 71
    magmatic degassing 571
    in sandstone diagenesis 669
coal ashes
    bituminous 361
    lignitic 361
    sub-bituminous 361
coastal plain, Israel 555
Coeur d'Alene district, Idaho, USA 641
colloform texture 347
complexation, metal/organic 687
coronene, in hydrothermal petroleum 115
Corrigendum 533
corrosion inhibitors 527
covellite, in till 347
Cr
    in laterite 303
    in organic matter 491
creosote 17
crude oil
    aqueous extracts 687
    in hydrothermal vents 115
cryogenic weathering 297
Cu
    geochemical anomaly 347
    in laterite 303
    in organic matter 491
    in sulfide tailings 327
    ore grade mineralization 227
Cu deposit, weathering 719

D, in formation water 397
Dagadamou, Kangaba District, Mali 303
decrepitation, of fluid inclusions 51
defluoridation, of drinking water 251
degradation, chemical 103
dehydration 149
dephosphatization, of organic matter 251
diagenesis
    carbonate 631
    of carbonates 449
    sandstone 657, 669, 687
    water-rock 375, 397
diatoms 159
differentiation, laterites 303
dissolution
    in ammonium determination 471
Dolgellan, North Wales, UK 289
Dominican Republic, Pueblo Viejo 237
drilling muds 687
DSV Alvin 41

Early Mesozoic basins, eastern USA 211
East Pacific Rise 115
    Atlantis II Deep 3
    Pacific Ocean 125
Eh, in I cycle 357
environmental engineering 251
environmental geochemistry
    B isotopes 541
environmental trace elements
    Co 327
    Cr 327
    Cu 327
    Pb 327
    Zn 327
equilibria, in groundwater modelling 515
Escanaba Trough
    California, USA 83
    Gorda Ridge, Pacific Ocean 93
    Pacific Ocean 3
ethane, in natural gas 279
evaporites
    B isotopes 541
    sulfate 703
experimental sediment alteration 193

F 251
fatty acids 115
Fe 115, 125, 135, 237
    in carbonates 449
    in laterite 303
    native 625
    in organic matter 491, 507
$Fe^{2+}$, in sulfide tailings 327
ferricrete 303
ferrihydrite, in sulfide tailings 327
Finland, Ylikiiminki 347
fluid flow 135
    hydrogeochemical 397
fluid inclusions 289
    hydrocarbon-bearing 51
    primary 51
fluids, hydrothermal 605
fluorescence 51
fluorite 251
formation water 687
fractures, in Au-quartz veins 297
France, Paris Basin 415

galena 449
    in marine sediments 77
    in sulfide tailings 327
gases 1
    (+$NH_3$) 289
    ($H_2O$) 289
    biogenic 263
    C 263
    $CH_4$ 289
    $CO_2$ 289
    He 263
    hydrocarbon 279
    hydrogen 625
    light hydrocarbons 135
    magmatic 263
    methane 625
    microbial 279
    $N_2$ 289
    thermogenic 279
GC-MS 17

weathering 703
short-chain aliphatic acids
in formation water 375
Si
complexation by CAA's 687
in laterite 303
siderite 237
silica, amorphous 51
Sm, in carbonates 449
$SO_4$ 449
in closed basin waters 719
in Cu mine water 719
in groundwater 555
$SO_4^{2-}$
in sulfide tailings 327
soils 357, 361
I-rich 347
solubility 17
gold 237
of phosphonates 527
solution
aqueous 527
hydrothermal 193, 237
metal-bearing 227
solvent extractables
trace elements 491, 507
Sonoran margin, Guaymas Basin 41
source rocks 429
South America 475
South Australia, Port Pirie 491
sphalerite 449
in hydrothermal vents 115
in sulfide tailings 327
spilite, gold mineralization 237
squeeze 527
Sr
in soils 361
in fly ash 361
in formation water 397
in groundwater 555
in travertine 631
Sr isotopes
in carbonates 449
S-minerals 449
$^{87}Sr/^{86}Sr$, in formation water 397
St. Lucia, West Indies 587
stable C and O isotope ratio
in deep sea aragonite 41
steranes 3
in crude oils 429
in hydrothermal petroleum 115
in Newark Basin rocks 211
steroids, aromatic 211
Stripa, Sweden 515
struvite, in dephosphatization 251
sulfate, inclusions in 51
sulfate reduction 71
thermodynamic 449
sulfide
inclusions in 51
kinetics 327
oxidation 327
in hydrothermal vent 93
in Red Sea sediments 103
supergene sulfides 347
surface sediments 149
surface water 357, 719
Sweden, Stripa 515
Switzerland, Acquarossa 563

talc 625
talus, in submarine vents 115
tectonics, extensional 77
temperature
homogenization 51
trapping 51
terpanes, in crude oils 429
Th-series
Ra 631
Th 631

thermal maturity 211
thermal processes 17
thermodynamics
    fluid 375
    gas calculations 317
thiophenes 237
Ti, in laterite 303
time-series data, in spring water 563
toxicity, of hydrothermal petroleum 17
trace elements
    in carbonate diagenesis 449
    selenium 703
tracer, B isotopes 541
travertine 631
triterpanes 3
    in hydrothermal petroleum 115
tungstic acid
    ($H_2WO_4$), in volcanic gases 317

U, in groundwater 533
U-series
    Ra 631
    Th 631
    U 631
ultramafic
    peridotites 625
    serpentinization 625
United Kingdom
    North Wales, Dolgellan 289
USA
    Alaska, North Slope 279
    Arkansas, Gulf Coast 449
    Calcite Springs, Wyoming 169
    California
        Escanaba Trough 83
        Long Valley 571
        San Joaquin Basin 687
    Eastern, Early Mesozoic basins 211
    Idaho 641
    Louisiana Gulf Coast Basin 687
    New Jersey, Newark Basin 211
    Oklahoma
        Anadarko, Basin 429
        Pauls Valley 429
    San Joaquin Valley, California 703
    Wyoming 631
        Rainbow Springs 169
        Yellowstone National Park 169
    Yellowstone National Park 169, 631
USSR, Baikal rift zone 297

V
    in laterite 303
    in organic matter 491
vapor phase, magmatic fluids 317
vitrinite 237
volatile acids 1
volatile elements 317, 357
volatile hydrocarbons 29
volcanic caldera, isotopes in water 571
volcanic gases, high temperature 317
volcanic rocks, B isotopes 541
volcanism, and gas fields 263

W, in volcanic gases 317
Waimangu, New Zealand 507
Wairakei, New Zealand 605
Waite Amulet, Quebec, Canada 327
water
    contamination 541
    formation 375, 397, 669, 687
    S and O isotopes 415
    geothermal 631
    ground 515, 555, 563
    hydrothermal 605
    waste 541
water-rock interaction 657, 669
water-washing 17
weathering
    acidic 703
    cryogenic 297
    profile 303
    tropical 303
well logs, gas hydrates 279
West Germany, Rhine River 491
West Indies, St. Lucia 587
Western Canada
    Sedimentary Basin 375, 397, 657
wolframite, in volcanic sublimates 317
wurzite, in marine sediments 77
Wyoming, USA 631
    Calcite Springs 169
    Rainbow Springs 169
    Yellowstone National Park 169

Y, in laterite 303
Yb, in carbonates 449
Yellowstone National Park, Wyoming, USA
169, 631

Zambales, Luzon, Philippines 625
Zn 125
    in organic matter 491, 507
    in sulfide tailings 327
Zr, in laterite 303
